OPEN ACADEMIA
PUBLISHING SERVICES

"We believe academic publishing should be resituated within the research community. Academic societies need to take back control of their own publications and we can provide the infrastructure and know-how to make that happen."

Browse our hosted journals below. For a full list of journals we work with, see our Journals list in the sidebar >>

Netherlands Journal of Geosciences

Netherlands Journal of Geosciences publishes new and significant research in the geosciences, with a regional focus on the Netherlands, including the Dutch offshore and the Caribbean parts of the Kingdom. We also welcome studies of adjacent areas and other regions that are relevant to the understanding of the geology of the Netherlands. The journal covers a wide range of topics, including geology, physical geography, geophyics, geo-archaeology, paleontology, hydrogeology, exploration, mapping, modelling, and visualisation.

Polar Research

Polar Research is the international, peer-reviewed journal of the Norwegian Polar Institute. The scope of *Polar Research* encompasses research in all scientific disciplines relevant to the polar regions. These include, but are not limited to, the subfields of biology, ecology, geology, oceanography, glaciology and atmospheric science. Submissions from the social sciences and those focusing on polar management and policy issues are welcome. Contributions about Antarctica are particularly encouraged.

OPEN ACCESS PUBLISHING SOLUTIONS

The Open Access movement has changed the world of publishing forever. As Open Access publishing evolves and gains momentum, traditional publishing houses have a hard time keeping up. The need for author-friendly, flexible and highly configurable systems, has made more and more academic societies turn to open source technologies to manage digital publishing on their own. And that is where Open Academia comes in.
